Arrests Made to Protect N. Lenox School Children

A number of arrests were made at New Lenox during recent weeks when cars failed to come to a complete stop at the corner of route 30 and Cedar Road.

The Lions club of New Lenox was instrumental in placing two flashers at that corner. There seems to be a little confusion as most drivers take the flashers for a warning signal to slow down. They state the word stop, is not very easy to see until they come right to the sign. Cases were brought to the Justice Court of Charles Carnahan in the Bruno Barber shop at New Lenox.

The flasher operates 20 minutes before school calls in the morning and at noon and 20 minutes after closing of school at noon and evening.

NEW YEAR'S EVE AIR CRASH KILLS FRANKFORT MAN

Attempting to fly an airplane without any gas in its tank, caused death to a former Frankfort man and companion, and death narrowly escaped several other persons.

The accident happened at 3:10 New Year's morning in Homewood, when Richard H. Koch, who had a student pilot's license, took his brother in law, Jacob Koolman, for a ride in a Consolidated Vultee single engine trainer plane.

At the inquest held Tuesday noon in the Homewood village hall, testimony was given that no one was at the airport at the time the plane went up and that the gas tank was empty, which was directly responsible for the tragedy. John Haigh, aircraft investigator for the Cook county coroner's office, stated that the student pilot's license which Koch had, did not authorize the carrying of passengers, instrument flying or flying at night without proper supervision.

Koch's log showed that he had 74 hours and 50 minutes of flying time and that he had no night or instrument flying experience. Early morning fog and smoke made it instrument flying weather, it was pointed out.

Several witnesses saw the crash from a short distance. From testimony at the inquest, it was thought the pilot was searching for the Rubinkam airport from where he had gone up about 35 minutes before the accident.

It was brought out that few men would have taken a plane out even during day time in weather as existed, the ceiling being 700 feet, according to testimony. The craft was used for training purposes during the war.

The landing and accident was in vacant property between the homes of William Lambert, 17016 Park avenue, and Miss Margaret and Miss Mary Hogan, 17904 Park ave., between the Dixie highway and Illinois Central station on the east side of the track. The Hogan sisters were at home and two children were asleep in a second floor bedroom at the time.

Sam Anselmo and Hjalmer Helversen of Homewood were playing cards with August Ehrlich in the other house and five year old Linda May Lambert was asleep. Her parents were away. The plane crashed a few feet from the home. Apparently the plane went down nose first. The nose was buried in the ground and only the tail assembly and a few feet of fuselage remained intact. The rest of the plane was a crumpled wreck.

Experts testified that the plane plummeted at a terrific speed, slipped between the two houses, skipped past the edge of three trees in the lot. A few feet either way the plane would have crashed into the frame houses.

Mr. Haigh, who arrived at the scene about an hour later, testified there was no noticeable odor of gasoline, indicating the plane's tanks were empty when the accident happened. The ignition switch was still on. It was the opinion at the inquest that drinking was not the cause of the crash.

Koch, whose home was at 8620 Lemont avenue, Oak Lawn, was born July 25, 1920 and was the father of a five year old child, who with his wife, survives.

Koolman was born July 26, 1920 in Minnesota and moved with his parents to Frankfort while a young lad, where he lived for some time. He served three years in World War II seeing service in Germany and Japan. He was employed by the Acme Steel Company in Riverdale. He is survived by his parents, three brothers, Louis and Raymond of Frankfort, Peter in the army; nine sisters, the Misses Elizabeth, Tena, Margaret and Rita Koolman of Chicago; Mrs. Wilma Andresen, Miss Barbara and Miss Joyce of Frankfort and Mrs. Clara Goessel of Midlothian.

Funeral services for both victims were held Wednesday afternoon in the DeYoung funeral home in South Holland with the Rev. Staat of Chicago officiating. Burial was in the Hazelcrest cemetery.

AVOID Possible Disappointment WHEN YOU USE ONLY ANTIHISTAMINE DRUGS

You Have a Far Better Chance to ABORT THAT COLD If You Also Use FOLEY'S

NOT ALL COLDS are stopped by antihistamine drugs. One type cold that can't be stopped by antihistamines is the cold in which a cough and sore throat develop. For such a cold, use Foley's Honey & Tar; the continued use of antihistamines exclusively can lead to needless discomfort, delayed recovery—maybe to serious complications.

Warning! If you NOW have a sore throat or cough or one has developed despite taking antihistamines...

START FOLEY'S QUICK! If antihistamines have failed you, they evidently are not what you need. So make up for 24 to 72 hours lost; switch at once to Foley's. Permeate your system with Foley's cold-aborting terpenes and pine tar oil which combat secondary-infection

giving you a cold coming on FOR BEST RESULTS, get the big economy \$1 bottle. Contains plenty; encourages you to take enough to permeate your system with the cold-aborting ingredients in Foley's Honey & Tar. At all druggists.

The Church Dynamic

Lesson for January 8, 1950

THE CHURCH is not meant to be a club, a lecture-hall, a debating society, a rest home, a music hall, an entertainment bureau or a burial association. It has something to do along all these lines, of course. But the Church is meant to be a place and channel of power.

One of the last things Jesus, the Founder of the Church, said to his friends was: "Ye shall receive power when the Holy Spirit is come upon you." Not—you shall receive comfort, or wealth, or insight, or any other good thing, though all of them have their place. What Jesus highlights is power.

Dr. W. M. Horton, in his little book on the Christian faith, asks: When is a church not a church? His answer is: When it has lost the Holy Spirit. That is a good New Testament answer.

The early Christians could not have imagined a church without the Holy Spirit, because in fact there had never been one without him. It was the coming of the Spirit on that summer day in Jerusalem that actually made the church, in the first place. True, it was not made out of nothing.

But suppose the Spirit had never come? What would have happened? Sooner or later the little band would have grown tired of waiting, would have given up faith in Jesus' promise, would have drifted off one by one, and the Christian church would have died after it was born.

Tongues of Fire

THERE SEEMS to be something mystic, mysterious and unreal about the Holy Spirit, to most people's minds. We read in Acts about the flaming tongues of fire, about the rushing mighty wind, about Christians talking in strange languages; and then we go to our own church and find there no fire, no wind; only ordinary English is spoken by everyday people, the same people we have been seeing all week.

We get to thinking the Holy Spirit is just something in the Bible, some experience they could have away back yonder, but not here and now. After all, looking over the church from that day to this, and around the world at the present day, how many cases, authentic genuine cases of fire-on-the-head or storm-in-the-church-house, do you find? Not many! Does that show the Holy Spirit is not here any more?

We must remember that St. Paul met with much the same questions. Did a man have to speak in strange tongues to be sure he had the Holy Spirit? Fortunately, Paul stated in so many words what the fruits of the Spirit are: Love, joy, peace . . . Look up the rest of it in Gal. 5:22-23.

You may take St. Paul's inspired word for it: If you ever see a church, a Christian group, that is notable for love, joy, peace . . . gentleness, goodness, faith . . . you may be sure the Holy Spirit is there. We do not gather grapes from thorns nor figs from thistles, Jesus says.

You don't have the fruits of the Spirit without having the Spirit. And that is Power. Said a great Australian preacher: Show me a church where the members treat one another with more real love than the people outside the church treat one another, and you will find men crowding the doors of that church to get in.

How Can We Get the Holy Spirit?

WE CANNOT GET the Spirit by wishing ourselves back in the first century. We can have the Holy Spirit now, on the same terms as always. There are no new conditions, no complicated rules, no application blanks to fill out. Jesus said: God will give the Holy Spirit to them that ask him; Paul said: Covet earnestly the best gifts.

In any church, if there is even a small group who want the power of God in their lives, who want his power for the church, that little group can change that church and change the community. Power passes through a wire when one end of it is attached to a dynamo and the other end to a machine that is doing some work.

Prayer—that is the touch with God. Service—that is the link with man. So power will flow through the Church when at one end it is in touch with God, and at the other end it is doing something real for human needs.

No Weather Worries!

with an Automatic GAS Clothes Dryer

Let it rain . . . or sleet or snow. When you have an automatic gas clothes dryer any day is wash day. No more postponing laundry because of the weather . . . no more rushing out to rescue clothes from a sudden shower. You simply take clothes from the wringer or spinner and toss them into the dryer . . . set the time control and just minutes later take the laundry out dry.

The fluff-drying action of a gas clothes dryer means less ironing for you, too. Towels, pajamas, tee shirts and the like dry soft and wrinkle-free. And as clothes are tumbled dry they're bathed in healthful ultra-violet rays by a special lamp. Ozone is released at the same time to give the laundry that sweet-as-clover freshness.

30 Day Trial Offer

Try a Gas Clothes Dryer in your own home for 30 days . . . if you are not completely satisfied you may return it and your 10% down payment will be refunded. This offer for a limited time only.

10% down and as long as 24 months to pay the balance with your Service bill.
